

SIVAHARSHA SOTTU

B.Tech Artificial Intelligence, Sai University (SCDS) | Chennai, India
sivaharsha.sottu@gmail.com | github.com/Godspirit4U | linkedin.com/in/sivaharsha-sottu

PROFILE

Second-year B.Tech AI student in the Computing and Data Science school at Sai University. Builds practical, end-to-end tools - from browser automation to 3D web experiences - and learns technologies from the fundamentals rather than pasting generated code. Seeking software engineering and AI internships where shipped projects matter.

EDUCATION

B.Tech, Artificial Intelligence - Computing and Data Science (SCDS), AIML minor 2025 - 2029 (expected)

Sai University - Chennai, India | Second year, Semester 3

Coursework: Programming in Python, Data Structures, Discrete Mathematics, Embedded Systems and Robotics, Python and Data Structures Lab.

TECHNICAL SKILLS

Languages	C, Python, JavaScript, HTML, CSS
Web	Django, responsive design, DOM scripting and userscripts
Systems	Linux (Ubuntu, WSL2), command-line tooling
Tools	Git, GitHub, VS Code, PyCharm, Google Colab, Notion

PROJECTS

TTD Seva Booking Autofill - JavaScript userscript

- Built a browser userscript that automates repetitive form-filling on the TTD seva booking portal: pilgrim details, ID selections, email presets and gender fields, across multiple pilgrims.
